**Subject:** Re: 6th e-mail of 6 - Dimock

Dawn -

It wasn't until our call today that I realized that your write-up for HW-24 does not mention the elevated sodium (tap= 87,200, wellhead = 88,000 ug/L, filtered at wellhead = 84,200).

Would you please include a write-up regarding sodium similar to what you have for HW-6 and re-send.

Thanks - Kelley
